FIG. 12 is a schematic diagram of a system 201 for monitoring a building 202. The system 201 includes a plurality of cameras 203 and 204, a processing unit 201, and a display unit 201. The cameras 203 and 204 are positioned around the building 202 to provide a 360-degree view of the building. The processing unit 201 is connected to the cameras 203 and 204 and is configured to process the video data received from the cameras. The display unit 201 is connected to the processing unit 201 and is configured to display the processed video data.
